East Asia's Haunted Present Tsuyoshi Hasegawa,Kazuhiko Togo,2008-06-30 This collection of essays by leading scholars from Japan, China, South Korea, and the United States examines how and why bitter historical memories have resurfaced in recent years as freshly virulent and contentious issues between Japan and its neighbors—especially China and South Korea. Moreover, it seeks to identify what set of conditions and what sequence of measures will enable these modern nations to manage, palliate, and exorcise the wrongs of the past in a spirit of reconciliation, so that the dangerous growth of nationalist resentments and revanchism can be checked. Comfort women ... the Yasukuni Shrine ... the history textbook controversies ... The single sorest issue confronting East Asia today is the growing animosity and conflict between Japan and its neighbors—especially China and South Korea—over their respective and collective memories of Japan's pre-1945 militaristic aggression, oppression, and atrocities. Even as East Asia has established itself as one of the most vibrant economic regions of the world, the strident nationalisms that have emerged here in the post-Cold War period have exacerbated historical grievances and heightened the international tensions that separate Japan from China and South Korea, blocking the development of an international system based on comity and cooperation.

Gender and Schooling in the Early Years Janice Koch,Beverly Irby,2005-09-01 In this volume, gender and schooling in the early years addresses a broad range of issues including, but not limited, to gender equity in education. We explore, for example, the complex world of play in Fromberg's chapter and are reminded that for young children, play involves issues of power and hierarchy in ways that parallel the role of gender in society. Miletta's study of preschool children in northern Italy, at Reggio Emilia, reveals a story of classroom interactions where gender differences are not part of the equation for the youngsters. Her chapter begs the question, How does this environment empower all children, regardless of gender? Two chapters provide a lens to the Montessori setting for young children. Wilgus studies the gendered patterns of young women teaching at a Montessori school, while Irby, Rodriguez, and Lara-Alecio explore the intersections of culture and gender at a bilingual Montessori public school. Further examining the preschool years, Plaster and Schiller address the current brain research and examine the ways in which the adults that staff early child care programs, and the environments that they offer, play an important role in the development of our children.

Bioceramics and Biocomposites Iulian Antoniac, 2019-03-26 Provides comprehensive coverage of the research into and clinical uses of bioceramics and biocomposites. Developments related to bioceramics and biocomposites appear to be one of the most dynamic areas in the field of biomaterials, with multiple applications in tissue engineering and medical devices. This book covers the basic science and engineering of bioceramics and biocomposites for applications in dentistry and orthopedics, as well as the state-of-the-art aspects of biofabrication techniques, tissue engineering, remodeling, and regeneration of bone tissue. It also provides insight into the use of bionanomaterials to create new functionalities when interfaced with biological molecules or structures. Featuring contributions from leading experts in the field, *Bioceramics and Biocomposites: From Research to Use in Clinical Practice* offers complete coverage of everything from extending the concept of hemopoietic and stromal niches, to the evolution of bioceramic-based scaffolds. It looks at perspectives on and trends in bioceramics in endodontics, and discusses the influence of newer biomaterials use on the structuring of the clinician's attitude in dental practice or in orthopedic surgery. The book also covers such topics as biofabrication techniques for bioceramics and biocomposites; glass ceramics; calcium phosphate coatings; brain drug delivery bone substitutes; and much more. Presents the biggest trends in bioceramics and biocomposites relating to medical devices and tissue engineering products. Systematically presents new information about bioceramics and biocomposites, developing diagnostics and improving treatments and their influence on the clinicians' approaches. Describes how to use these biomaterials to create new functionalities when interfaced with biological molecules or structures. Offers a range of applications in clinical practice, including bone tissue engineering, remodeling, and regeneration. Delineates essential requirements for resorbable bioceramics. Discusses clinical results obtained in dental and orthopedic applications. *Bioceramics and Biocomposites: From Research to Use in Clinical Practice* is an excellent resource for biomaterials scientists and engineers, bioengineers, materials scientists, and engineers. It will also benefit mechanical engineers and biochemists who work with biomaterials scientists.

Social Innovation and Sustainable Entrepreneurship Maritza I. Espina, Phillip H. Phan, Gideon D. Markman, 2018-08-31 The rapid and formative rise in research on social innovation and entrepreneurship means that theoretical frameworks are still being created, while traditional notions of economic efficiency and social welfare are tested. The field is progressing fastest in the measurement and measuring of social entrepreneurial effectiveness. Social innovators, who draw from philanthropy, as well as capital markets, for financial resources, have adopted the lean start up as a paradigm for their organization logics.

Identifying and Regulating Religion in India: Law, History and the Place of Worship Geetanjali Srikantan, 2020-10-29 This book takes up the challenge of legally defining religion in contemporary India by investigating the intellectual history of colonial law.

Reconceptualising the Divide Victor Teo, 2020-05-22 Relations between the People's Republic of China and Japan are still subject to abrupt and periodic diplomatic confrontations and subtle political antagonisms. Though China and Japan have signed four political instruments, including the 1978 Treaty of Peace, Friendship and Co-operation, and maintain vibrant economic relations, Beijing and Tokyo too-frequently appear to have difficulty getting along. In this new volume, edited by Gerrit Gong and Victor Teo, a leading group of international scholars delineate underlying causes that strain bilateral Sino-Japanese relations and shape the 21st century international system. This book focuses on the "ideational" aspects of the Sino-Japanese relations—an area contemporary policy-makers and diplomats often neglect. Beyond visible interests and political gains, ideational forces including memories, identities, norms synthesize with nationalism and domestic politics to shape the tone and direction of Sino-Japanese relations and, for better or worse, set the trajectories for these two political and economic giants in the future.

China's Challenges to Human Security Guoguang Wu, 2012-11-27 This book looks at human security in China's foreign relations. It discusses the concept and theory of human security, and their implications for China. The book goes on to analyse environmental security issues, including climate change and water resources, as well as looking at issues from an energy consumption perspective. Significant human security issues are then focussed on, including food safety, pandemic disease control, migration, and the human rights implications of China's overseas investment.

Die vollkommene Gemeinde Alexander Basnar, 2019-03-12 Diesem umfangreichen und doch zu kurzen Buch liegt eine These zugrunde: Gott hat die Gemeinde in Jerusalem vollkommen geschaffen. Die Eckpfeiler dieser Vollkommenheit sind die sieben Säulen der Weisheit. Um diese These zu belegen, leitet sie Alexander Basnar zuerst aus dem Alten Testament her, arbeitet sie aus dem Neuen heraus und fügt das Zeugnis der frühen Kirche hinzu. Doch das alleine wäre zu wenig; wir müssen auch verstehen, warum die Gemeinde verfallen ist, wie Restauration aussehen muss und warum die Reformation zu kurz gegriffen hat.

The International Politics of the Asia Pacific Michael Yahuda, 2012-12-06 This second edition of Michael Yahuda's extremely successful textbook introduces students to the international politics of the Asia Pacific region since 1945. The new edition is completely updated with contemporary coverage of the economic crises and includes new chapters on: the current role of East Asia in world affairs prospects post-2000 the strengths and weaknesses of US dominance and the challenge of other powers prospects for and implications of an East Asian economic recovery.

History Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C. Snider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions, especially in the realms of culture and economy. Still, the region cannot escape from the burden of history. This book examines the formation of historical memory in four

Northeast Asian societies (China, Japan, South Korea, and Taiwan) and the United States focusing on the period from the beginning of the Sino-Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951. The contributors analyse the recent efforts of Korean, Japanese, and Chinese scholars to write a 'common history' of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements. In doing so, they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided, and often conflicting, historical memories. The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives. Through uncovering the existence of different master narratives, it is hoped, citizens will develop a more self-critical, self-reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self- and mutual understanding and eventual historical reconciliation in the region. This book will be essential reading for students and scholars of Asian history, Asian education and international relations in East Asia.

Rationierung im Gesundheitswesen Christian Erk, 2015-09-14 Diese Publikation befasst sich mit einer umstrittenen Handlungsstrategie zum Umgang mit dem chronischen Finanzierungsdefizit unserer Gesundheitswesen: der Rationierung anhand des Kriteriums Selbstverschulden. Wie argumentiert wird, ist die Rationierung nach Selbstverschulden grundsätzlich moralisch zulässig, jedoch nur in einer sehr begrenzten Anzahl von Fällen möglich. Deswegen sollte vom Einsatz dieses Rationierungskriteriums abgesehen werden.
